This is a fake game and Boogygames Studios is a fake developer. You can tell because this same fake game has been released onto Steam again by a totally different fake developer, see here.

[This fake game is an asset flop of a pre-made unity game template called "Switch The Gravity"](https://assetstore.unity.com/packages/templates/packs/switch-the-gravity-63196)

[ALSO, this is probably an Early Access SCAM. I say this because this was released in Aug. 2017. Since then this fake developer has released 17 more fake games onto Steam yet not a single update to this "early access game".](#)

[This fake developer doesn't care whatsoever about video games, gamers, real game developers or being good people at all. They are only here to rip you off and you should never support them.. I need to say this is a cool game. A nice little rage game. I didn't know you use the mouse to move the duck. That's creative. :D. It's hard to predict map. I die to much and can't get far..... I have not even played the game but someone how I have gotten 5 hours. So it must be good then.. This game could easily be put out of early access. It is just that amazing just add a few more feature and it will be perfected, this game gets a 10/10 on how good it is.. Rainbow Duck is an ok game.it's fun to play when you're bored. You should make a DLC for it,maybe a rocket duck mode where you fly through the map instead of... doing whatever its doing now. It reminds me a lot of Geometry Dash.Don't know why tho.Score button doesn't seem to be working yet.music needs an upgrade too.Anyways I reccomend this game to people that like wacky games.. CLASSIC](#)

[Fun and retro styled game. add some items for effects.. glorified flash game. This is not a game. more like a Unity reskin of the google dino run game. instead of jumping over cacti you are jumping from the floor to the ceiling until you hit a wall.](#)

[No point to play](#)

[No achievements](#)

[No cards](#)

[Why even bother buying this? Ugh](#)

This game is a masterpiece. Might be a little tough for you noobs but my highscore is 98, beat that :)))

P.S. I got this game for 50cents, quite the steal for such an amazing game tbh.
